## Career Objective

Dedicated Final Year Data Science Student with hands-on experience in Python, Pandas, NumPy, and visualization libraries, applying Machine Learning techniques to extract insights from structured and unstructured datasets. Actively exploring More of DS & ML , Artificial Intelligence and Generative AI, with a focus on ethical, scalable solutions for real-world challenges and complemented by creative pursuits in UI/UX design, photography, and content creation / editing, bringing a multidisciplinary approach to innovation and problem-solving. Driven to excel at the intersection of data science, human - centred design, and impactful storytelling.

## Work Experience

**AI Developer Intern - Viswam AI - Swecha Telangana (Remote)**

**May 2025 - Present**

Work with Python and real-world AI through hands-on projects and modern DevOps tools.

Explore GPT, BERT, RAG architectures, understanding NLP while fine-tuning culturally relevant models.

Deploy impactful applications and contribute to an ethical, open-source AI community that balances learning with action.

## Projects

**A) Developing Automated Bots :**

1. **Cars Info** : Bot providing daily car-related insights to your social media for automobile enthusiasts.

2. **Python Learn** : Bot sharing daily Python programming insights to your social media for Python learners & enthusiasts.

**B) Other :**

1. **Habit Tracker** - Making big changes happen, one small checkmark at a time by tracking your small daily efforts to achieve your long-term goals.

## Team Projects

**Smart Expense Tracker** - Building a AI integrated web tracker to smartly split the expenses among group members where splitting is done as per users expenses.

**Traveling Salesman** : Optimization project to find the most efficient route for a salesperson visiting multiple cities.

**Stock Analysis & Forecast** : Project analysing and forecasting stock market trends for informed investment decisions, currently focusing on single stock but planning expansion.

**Know2Grow** : AI-powered career development platform under development offering career exploration, resume enhancement, and interview preparation.

## Skills

### TECHNICAL SKILLS

Programming Languages : Python - Java - C - C++ - C# - SQL - JavaScript - HTML - CSS

Data Science & ML Frameworks : NumPy - Pandas - Scikit-learn - TensorFlow - PyTorch - Streamlit

Data Visualization & BI : Tableau - Power BI - Excel - Google Looker Studio

Web & UI Tools : Framer - Figma - Photoshop - Canva

Ongoing Wipro's Dot Net Full Stack Training

## Education

**Bachelors in Computer Science Engineering with Data Science (CSE - DS / CSD)**

MVGR College Of Engineering (A)

7.14/10 CGPA

2022 - 2026

## Certifications & Badges

---

- Brain'O Vision - International Workshop on Data Science using Python
- Microsoft Azure Data Fundamentals: Explore data analytics in Azure
- Microsoft Azure Data Fundamentals: Explore core data concepts
- Forage - Deloitte - Data Analysis Job Simulation
- Infosys SpringBoard - Unleashing GenAI
- Cisco - Introduction To Networks
- EdX - Macroeconomics

## Additional Skills

---

- UI/UX Designing: Crafting visually appealing and intuitive interfaces that enhance user satisfaction and engagement.
- Web Development: Building robust, responsive websites that turn creative ideas into functional digital experiences.
- Freelancing in Content Creation - Posters , Photos & Editing

## Achievements

---

### 1. SIH - Smart India Hackathon (2024) Finalist

- Worked collaboratively in an intensive 36 hour hackathon and had great insightful experience.

## Volunteering Experiences

---

- Volunteer At FYFP\_MVGR - Attended multiple service oriented sessions to serve & help few school students through FYFP\_MVGR
- Member Of GDG On Campus - MVGR
- Member Of ETC\_MVGR - Attended and Conducted technical workshops

## Declaration

---

I hereby declare that all the above information is true.

**Ayila Surya Kiran**
